

As Rock and Roll As It Gets

K's Choice

Me talking on a cellphone
A baby girl crying over it
Her baby brother reaching for a knife
Now he touched it so he's bleeding a bit I would sit down and tell you all about it
If I had the time
But I'm sure I just heard another one who's shouting
And now I wanna know why It wasn't easy at first
Now it's so clear in my head
From couldn't get any worse
To it's about, about as rock & roll as it gets Where is it at, the fast lane
Where is it at, my friends
If this is it, it's insane
But I'd do it all over again
I would sit down and tell you all about it
If I had the time
But I'm sure I just heard another one who's shouting
And now I wanna know why It wasn't easy at first
Now it's so clear in my head
From couldn't get any worse
To it's about, about as rock & roll as it gets I would sit down and tell you all about it
If I had the time
But I'm sure I just heard another one who's shouting
And now I wanna know why It wasn't easy at first
Now it's so clear in my head
From couldn't get any worse
To it's about, about as rock & roll as it gets
It wasn't easy at first
Now it's so clear in my head
From couldn't get any worse
To it's about, about as rock & roll as it gets
