Stay

Caleb Lovely

I won't believe you this time
Excuses you make just don't fit quite right
But I'm stranded here, baffled at what to say to you
Well I'm so sure but you're not
Don't stay here wasting my time
When you're not sure your heart's not mine
But I'll stay here until you return
And you'll hold the key to my heart
And you'll hold the key to my heart
There's a trail out back that'll take you to the city
Or a key on a chain 'round my neck that leads to my heart
I know you've got so much to do
And I pray you choose what's best for you
Just know that you have a place 'round here
And don't stay here wasting my time
When you're not sure your heart's not mine
But I'll stay here until you return
And you'll hold the key to my heart
And you'll hold the key to my heart
Come back come back where ya going from me?
Come unlock your mystery
Come back come back and take my key
And open up your mystery
Come back come back where ya going from me?
Come unlock your mystery
Come back come back and take my key
And open up your mystery again aggaaaaiinn
And I'll stay here
And I'll stay here wasting my time
And I'll stay here
Your heart's not mine
And I'll staaaaay here
