Keep Holding On

Syleena Johnson

Sometimes I feel like I can't go on
I often struggle with the thought of moving on
Where is life taking me to Lord, will I get ahead
Then my heart tells me to be strong and use my head
[Chorus (x2):]And heep holding on, keep holding on
That's what my mother told me, you time will come
Just be patient, that's what my father told me
Life can be so cruel, but don't lose your cool

Just keep holding on and on, things will work out soon
Just don't be a fool, keep your head up and be strong
I know it's easier said than done
'Cause it seems like you can't count on anyone
And it's so hard to be alone when times are rough
Just belieing in yourself will be enough
[Chorus (x2)]
