

# Entwined

## Lacuna Coil

And you take me over  
over again.I wonder how I can go on and on  
when you want to bury my passion.  
You are the shell around  
I cannot escape  
and I swallow my pride.Entwined together now  
it's time to pass it over  
(and you take me over, over again)  
Entwined together now.And you take me over  
over again.I wonder  
how can I live on and on  
when you want to live in a hurry.  
You are the wall  
-that I-  
that I have to remove.  
And I swallow  
I swallow my pride.Entwined together now  
It's time to pass it over.  
Entwined together now  
entwined forever.And you take me over  
over again.Entwined together  
entwined forever.
