

# Fox

## Millencolin

I met a fox the other day  
When I asked how much she cost, I had to pay  
All of a sudden I'd brought her home  
She's one hundred kilos dressed in silver chrome  
She's my world, she's so rad  
And she's the best ride I ever had  
She's my life, she's so bad  
And she's the best ride I ever had  
When I imagine me and her  
You know that I get a stand-up fur  
I give her oil, I give her gas  
And get her seat beneath my ass  
And then the turtledoves drive away  
She's my world, she's so rad  
And she's the best ride I ever had  
She's my life, she's so bad  
And she's the best ride I ever had  
She's secondhand, so what?  
She's true, she's by my side  
For all I care, she's hot  
She's a real good ride  
When we go out people stop  
And stare with jealous minds  
It's okay for me, as long as they let her be  
To prevent something like a theft  
I got her locked around a tree  
She's my world, she's so rad  
And she's the best ride I ever had  
She's my life, she's so bad  
And she's the best ride I ever had  
And she's the best ride I ever had  
And she's the best ride I ever had
