# Alive

## Dirty Vegas

Through these eyes I see, there's a place for me
And life is full of questions that keeps me alive
Through these veins I feel, a certain kind of thrill
And I'm flying in all directions that keeps me alive
Would you sell the story? Drown in all the glory
That surrounds you, surrounds you
Won't you shelter me? Keep me company
As I'm searching for protection to keep me alive
With these hands I feel, a certain kind of thrill
And I have in my possession what keeps me alive
Secrets I have found, it turns my head around
It's what keeps me alive, it's what keeps me alive
From these eyes I see, there's a place for me
And life is full of questions that keeps me alive
From these veins I feel, a certain kind of thrill
And I'm flying in all directions that keeps me alive
It's what keeps me alive, it's what keeps me alive
And I'm flying in all directions, it's what keeps me alive
It's what keeps me alive, it's what keeps me alive
And I'm flying in all directions, it's what keeps me alive
