

Cosmic Rays

Helium

St. Christopher, help them please.
I saw them floaTING on the little BREEZE.
Their hearts were tiny and their eyes were black
when I heard the whole world CRACK.
Born in the time of the awful power,
out of the ground like little FLOWERS,
I saw them listen to the radio,
and I can still hear it go:(when the sun comes up under the ground
love is shining all around
down by the river the Dragons play
digging for the light of day.)
I don't care if it takes too long,
I really don't care about this SONG,
I'll be outside with the other freAKS
where the cosmic rays are weak.
I can't see you on this awful day,
I can't see you when anyway,
radio WAVES are in the way,
it's the DAWN of the cosmic day
(when the sun comes up in your mind
say good bye to all of your kind
down by the river the dragons die
watched by prophets in the sky.)

Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
