

# Keep It Healthy (El-P Remix)

## Warpaint

I could not believe what I was seeing  
There's no words even believe in  
How could we wend did we forget, what we can't forget?!  
That's the stars feel what we're made of! I could not believe what you have said  
With all the experience  
Was your crowd in [?]  
You were there, you were there  
When I first believed in  
I first laughed and thought I was dreaming! You and I feel the same  
Don't forget, don't forget  
You and I walked the flame  
Don't forget, don't forget  
I never made a sound  
Don't forget  
Somebody else I woke up one day, baby  
Let's get cool and  
There's no need to where you're going  
Take my hand, take my heart into this moment  
To where you understand - and where you believe in
