

# Share with You (feat. Lennon & Maisy)

## Nashville Cast

I like the way I walk  
I like to hear myself talk  
I like the sound, of the beat of my own drum.  
One is so much better when it's two  
I'd rather share with you I like a girl's night out  
I like to get lost inside a daydream  
I like a game of Solitaire  
One can get so boring without two  
I'd rather share with you (Interlude) I like being me  
I like being free  
One is so much better when it's two  
I'd rather share with you  
I'd rather share with you  
I'd rather share with you
