

Dead and Buried

RF7

Looking at the television
can't see what's on the screen
Wipe my eyes to clear my vision
or is this just a dream
No one ever backed me up
got no one on my side
I loved you like a father
so you fucking up and died

Black Veil Describes just how I feel
You fail For me that's very real
Dead and Buried

Voices from the other room
can't tell just what they're saying
Why is it I have this feeling
these are dues I'm paying
You treated me like shit
but you're all I ever had
How the fuck do I decide
if I'm happy or I'm sad

Can't see Got something in my eyes
Fuck me My life is based on lies
Dead and Buried

Taking risks and taking dares
that's just a part of my life
Leave me alone long enough
I'll try and fuck your wife
You neglected me at every turn
now even that is gone
To leave me here alone like this
something must be wrong
