

Rolling Stone (Niklas Ibach Remix)

Hurts

[Verse 1]

In fair Verona where we lay our scene

Juliet is on her knees

She shoots to kill and aims to please[Pre-Chorus 1]

And you can see it in her eyes

It's not something that she likes

But she can't stand being alone

So you thank her for her charm

And you take her in your arms

But she just won't let you go[Chorus]

She said her daddy was an alcoholic

And her mother was an animal

Now she's living like a rolling stone

She said that the lord will never take her alive

If they take her home[Verse 2]

In Belarus she was a vespertine

She danced the gogo for the bourgeoisie

Now she's here

And she is on her knees[Pre-Chorus 2]

And she won't apologize

For the cheating and the lies

But she can't stand being this way

And you can see it in her eyes

She would kill them if they try

To send her back to her grave[Chorus]

She said her daddy was an alcoholic

And her mother was an animal

Now she's living like a rolling stone

She said that the lord will never take her alive

If they take her home[Bridge]

(Rolling stone, rolling stone)

And she keeps on living like a

(rolling stone, rolling stone)

And she keeps on living like a[Chorus]

She said her daddy was an alcoholic

And her mother was an animal

Now she's living like a rolling stone

She said that the lord will never take her alive

If they take her home[Outro]

They'll never take her alive if they take her home
They'll never take her alive if they take her home
They'll never take her alive if they take her home
