

# Shake Off the Demon

Brewer & Shipley

Shake off the demon  
See how the angel run  
Pull out the powder  
Shoot with an empty gun  
Burn down the highway  
Leaving no place to run

So many visions to psychoanalyze  
Politicians screaming  
Their bleeding lies  
And all the natural children  
Rise on a compromise

[CHORUS]  
Oh, lady, open your window  
And let that fresh air blow  
Let it shake, let it  
Shake off your demon  
And watch that angel go

Who's that preacher  
Talking up the holy way  
Singing the glory of  
How love fulfills  
There's a man in a uniform  
Says he wants to teach you to kill

Shake off the demon  
See how the angel run  
Pull out the powder  
Shoot with an empty gun  
Burn down the highway  
Leaving no place to run
