

# All Around

## Fannypack

Gotta get down now, all around  
Black, white and brown now, all around  
Check out the sound now, all around  
All around, all around In every town now, all around  
Gettin' on down now, all around  
Check out the sound now, all around  
All around, all around On the pitcher's mound now, all around  
Got royal crown now, all around  
Don't drown in the sound now, all around  
All around, all around Doo doo brown now, all around  
You're lost and found now, all around  
I'm Brooklyn bound now, all around  
All around, all around Up and down now, all around  
Fat like a cow now, all around  
Check out the sound now, all around  
All around, all around Gimme a pound now, all around  
Fox and the hound now, all around  
Break it on down now, all around  
All around, all around Gotta get down now, all around  
Black, white and brown now, all around  
Check out the sound now, all around  
All around, all around In every town now, all around  
Gettin' on down now, all around  
Check out the sound now, all around  
All around, all around
