

# Daylight

## Failure

I've got a catacomb with fur covered Styrofoam  
So come over now and sleep  
Time isn't here again, wasted thoughts that could've been  
Now we can devise our planDaylight, daylight  
Daylight won't find us hereI've got a catacomb with flags that flew fifty years ago  
Let sleep overcome your mind  
God isn't safe again, molest trees and chop down men  
So we must revise our planDaylight, daylight  
Daylight won't find us hereDaylight, daylight  
Daylight won't find us hereDaylight, daylight  
Daylight won't find us here
