

Stir It

Omi

Ooh yeah
OohI know what I want
And I want it right now, right now
I know what I need
And I need right now, right now
'Cause you're looking at me
Like you're thinking it, too
I don't see nobody here (nobody)
But us twoWe can stir it all night
 Girl, your body so tight
 We can stir it all night
 You can throw it back now
 Don't hold nothing back now
 We can stir it all night
 Girl, your body so tight
 We can stir it all night
 You can follow back now
Don't hold nothing back now (yo)I'm making you hot
 I'mma give it to you right now, right now
 I know what you got
 And I want it right now, right now
 Ooh, let me put it on you
 'Cause I know I could do
 I don't see nobody here (nobody)
 But us twoWe can stir it all night
 Girl, your body so tight
 We can stir it all night
 You can throw it back now
Don't hold nothing back nowWe can stir it all night
 Girl, your body so tight
 We can stir it all night
 You can follow back now
Don't hold nothing back nowOoh, let me hear you say, oh-oh
 Ooh, let me hear you say, oh-oh
 Hey, give it to me now
 And let me put it on you
 Yes, I know what to do
 Ain't nobody here (nobody)
 But us twoWe can stir it all night

Girl, your body so tight
We can stir it all night
You can throw it back now
Don't hold nothing back now
We can stir it all night
Girl, your body so tight
We can stir it all night
You can follow back now
Don't hold nothing back now
Yeah
Ooh
No no
Let it go
