

See Saw

Devendra Banhart

Your head's a see saw it sees and then saw
Now get some extra fingers growing
Yeah, get some extra fingers growing
In, in, in Your eyes are ramble light of candle
Now get some amber fluid flowing
Get some amber fluid flowing Your lips are graying and your mouth is saying
Get some other diamond sparkling
Get some other people talking You young, dumb ripe thing
You're, you're brave and you're antsy
You strong lunged new thing You're here to get this baby dancing
You're here to get this baby dancing
You're here to get this baby dancing You're here to get this baby dancing
You're here to get this baby dancing
You're here to get this baby dancing I always knew
I always knew
I always knew
