

Post Break-Up Sex

The Vaccines

Advisory - the following lyrics contain explicit language:

I can barely look at you
Don't tell me who you lost it to
Didn't we say we had a deal?
Didn't I say how bad I feel? Everyone needs a helping hand
Who said I would not understand?
Someone up the social scale
For when you're going off the rail That post break up sex that helps you forget your ex
What did you expect from post break-up sex? Leave it 'til the guilt consumes
Fucking in the nearest room
All our friends were unaware
Most had just passed out downstairs To think I'd hoped you'd be okay
Now I can't think of what to say
Maybe I misunderstood
But I can't believe you're feeling good From post break-up sex, that helps you forget your ex
What did you expect from post break-up sex? Post break-up sex, that helps you forget your ex
What did you expect from post break up sex? Oh, when you love somebody but you find someone, uh huh
uh And it all unravels and it comes undone, uh huh uh, uh huh uh, uh huh uh Post break-up sex, that helps you
forget your ex
What did you expect from post break-up sex? Post break-up sex, that helps you forget your ex
What did you expect from post break-up sex?
