

Life Forces

The Power Station

You build a dream in the clouds floating over you
The wind just blows it away
So many sins from the past catching up with you
You can't avoid judgment day

Anima/Animus/Pneuma/Prana/Atman/Jivatman/Jiva
Life forces act on you, life forces your hand
So many omens that tell of your future
You don't know what they convey

Life forces you to choose, life forces at play
Life forces - nature's tools, life forces you to obey
You think you'll feel love by trying to find it
But love comes looking for you
That power which erring men call only chance
You feel it working on you - talkin' 'bout

Anima/Animus/Pneuma/Prana/Atman/Jivatman/Jiva
Life forces rule the world, life forces at work
Life forces you instinctively, life forces you on
Life forces act on you, life forces your hand
Life forces you to go on, life forces command
Just when you think you've a grip on your future
Destiny changes your plans - talkin' 'bout

Life forces act on you, life forces your hand
Life forces you to choose, life forces command
Life forces - nature's tools, life forces you to obey
Life forces rule the world, life forces your hand
