Mary's Leather Clown

Brian Goss

Do you remember the walks through the circus?
When I told you a secret or two
About the day your brother died in the pool
As I watched his eyes pleading to stay
And I watched his life floating awayMary's Leather ClownYou liked the coffee but you didn't like the cocaine
At the kitchen table three days with some friends
And my reply was a lie I said love never dies
And yes I exercise my demons it's true
But it helps me with what I'm to do toMary's Leather ClownYou liked the colors but you didn't like the explosions
In the summer I said we were through
And the night was alive like the fourth July skies
And now I'm shuffling pictures of you
Preparing what I am to do toMary's Leather Clown
