

Bigger Than War

Boy George

I'll size it up if you want me to
It's bigger than me, the song you love
The ones you hate, Eyeliner voodoo
Here we go again Bigger than you, bigger than me
Love is bigger than war Holds us together tears us apart
Make us forget and remember who we are
Just like an atom it's here and it's there
Better run for cover when love is in the air Bigger than you, bigger than me
Love is bigger than war Bigger than The Beatles, the rolling Stones
Bigger than Elvis, but not YOKO
Bigger than you, bigger than me
Love is bigger than war Everything I learned about love, I learned it from you
Everything I learned about love like what not to do
Love, love glorious love makes you crazy but you want that stuff
New York love, London love, french Italian Jamaican Love Bigger than you, bigger than me just like an atom
it's here and it's there
Better run for cover when love is in the air Bigger than The Beatles, the rolling Stones
Bigger than Elvis, but not YOKO
Bigger than you, bigger than me
Love is bigger than war
