Crushin' on You

Kaylee Rutland

So this is how it feels, To wonder if itâ€™s real
And wonder why you make me feel so good
To wanna lose control, And see how far this goes
And never even wonder if I should

It goes through my head every time you kiss me
I havenâ€™t had a drop but you got me tipsy
You look in my eyes, I canâ€™t catch my breath
Youâ€™re making my heart a beautiful mess
With every little look, every little touch, every little move
Youâ€™ve got me crushin on you, crushin on you, crushin on you

I wanna fall inside the ocean of your eyes
Give up and let myself get swept away
I only wanna be where my heartâ€™s leading me
And feeling like youâ€™re feeling the same way

It goes through my head every time you kiss me
I havenâ€™t had a drop but you got me tipsy
You look in my eyes, I canâ€™t catch my breath
Youâ€™re making my heart a beautiful mess
With every little look, every little touch, every little move
Youâ€™ve got me crushin on you, crushin on you, crushin on you

Crushin on me
crushin on you crushin on me
when you hold me

It goes through my head every time you kiss me
I havenâ€™t had a drop but you got me tipsy
You look in my eyes, I canâ€™t catch my breath
Youâ€™re making my heart a beautiful mess
With every little look, every little touch, every little move
Youâ€™ve got me crushin on you, crushin on you, crushin on you

Crushin on you, crushin on you, crushin on you

So this is how it feels to wonder if itâ€™s real
And wonder why you make me feel so good
