Smashing Pumpkins

Lover, lover let's pretend
We're born as innocents
Cast into the world
With apple eyes To wish wish dangerous
My dear delirious
To try and leave
The rest of us behind Shot full of diamonds
And a million years
The disappointed disappear
Like they were never here Kiss kiss all of this
The hiss that we had miss
And understand what can't be understood Sear those thoughts of me
Alone and unhappy
I never liked me anyway If by chance
Or circumstance
We should fail
Don't be so sad Shot full of diamonds
And a million years
The disappointed disappear
Like they were never here In a dream
We are connected
Siamese twins
At the wrist And then I knew we'd been forsaken
Expelled from paradise
I can't believe them
When they say that it's alright Words can't define what I feel inside
Who needs them?
Caught with this virus of my mind
I give in to my disease, of my needs
To my disease, of my needs She really loves to break
Her dad says it's OK
She really loves to break
And give it all away Her ma says she's afraid
What more can she fake
She really needs to break
And give herself away She gave it all away
She gave it all away
She gave it all away

We really love the USA
