

Don't Leave Me

Blackstreet

No baby, no baby, no baby
No, no, no If you take your love away from me
Ill go crazy, Ill go insane No baby, no baby, no baby
No, no, no
No baby, no baby, no baby
No, no, no Youve got your problems baby and Ive got mine
Lets just spend it all by putting it together, yeah
When you say you love me it dont mean a thing
If you care, youll be there, like you used to be, yeah Im searching for the words to make you realize
That I really, really want you to stay, oh
Tears of frustration I hold inside
But if you walk away youll make this grown man cry Dont leave, dont leave me girl
Please stay with me tonight
Dont leave me girl
Please stay with me tonight Forget my pride girl, I beg you youre my heart, youre my soul
Youve got so much control
My love runs deep within the ocean and sea
But if you sail away youll take a center piece of me Dont leave, dont leave me girl
Please stay with me tonight
Dont leave me girl
Please stay with me tonight No, dont go
Dont leave, dont leave me girl
Please stay with me tonight
Dont leave me girl
Please stay with me tonight Stay, stay, stay
Stay right here with me forever
Stay, stay, stay
Stay right here with me forever If you take your love away from me
Ill go crazy, crazy, crazy, insane
If you take your love away from me
Ill go crazy, Ill go insane
If you take your love away from me
Ill go crazy, Ill go insane Stay, stay, stay
Stay right here with me forever
Stay, stay, stay
Stay right here with me forever No, no, no
No baby, no baby, no baby
