Carry Me

Audrey Assad

Pain is a forest we all get lost in Between the branches hope can be so hard to see And in the darkness we've all got questions We're all just trying to make sense out of suffering but You say I am blessed because of this So, I choose to believe As I carry this cross, You'll carry me Help me believe it Fear is a current we all get caught in And in its motion faith can be so hard to find And we all falter 'cause we're all broken We're all just trying to turn the shadows into light but You get glory in the midst of this And You're walking with me And you say I am blessed because of this So, I choose to believe

As I carry this cross, You'll carry me
And I know Your promises are faithful
And God, I've seen Your goodness in my life
And oh, I've found Your mercy is a river
Your love is an ocean wide
You say I am blessed because of this
You get glory in the midst of this
And You're walking with me
And You say I am blessed because of this
So, I choose to believe
As I carry this cross, as I carry this cross
'Cause as I carry this cross, You'll carry me
You'll carry me, God
You'll carry me
And Your love is an ocean wide
