Raining Down

By The Tree

I know You're here, You're here with me
And I feel Your touch, Your hand upon me
And I feel You close, closer than the song I sing
And I feel You coming, coming like the rain
I feel Your presence falling all around meRaining down
And I feel Your spirit falling all around me now
Raining down
And I feel Your spirit falling all around me nowMy true friend, the beginning and the end
Jesus, You're always there for me
I just want to see You
I just want to be with YouRaining down
And I feel Your spirit falling all around me now
Raining down
And I feel Your spirit falling all around me now, nowRaining down
And I feel Your spirit falling all around me now
Raining down
I feel Your spirit falling all around me nowI feel it falling
I feel it falling down all around
You're coming all around
Just like the rain, You're falling down
I feel Your spirit, it surrounds
