

Peacemaker

Texas Hippie Coalition

Many men in me, I'm bended knee yeah
They have confide
They feel this vicious act of violence What has been justified?
Somewhere in the total darkness
That's where you might expect me to hide
But one thing that you don't know is
I'm right on the gunslingers side I am peacemaker
I send you to your maker
God damn the pusher man
Pray to God he understands
We'll all have hell to pay
When time comes for our judgment day
Said God damn the pusher man
Just drive the nails through my hands
I'm not the one they call trigger
But I'll be happy to go ahead and pull it
I ain't the one to call gun powder
But I'm damn sure the smoking bullet
Some say the sun sets in the pocket
And it's ready to blow
And I just wanna welcome you all to big dad's gun show I am peacemaker
I send you to your maker
God damn the pusher man
Pray to God he understands
We'll all have hell to pay
When time comes for our judgment day
Said God damn the pusher man
Just drive the nails through my hands
Well I just want the devil's ass
You ain't seen nothing, let Jesus ask
It wasn't nothing he'd need to see
This is so much can got me God damn the pusher man
Pray to God he understands
We'll all have hell to á¹—ay
When time comes for our judgment day
Said God damn the pusher man
Just drive the nails through my hands
