

Radiator (Jasen Rauch (of Red) Remix)

Family Force 5

Goodbye humans, goodbye earth
I've left this place and all its worth
I am transcending space and time
I'm traveling at the speed of light Affection, reflection
This is the new direction
Conspiracy is idiocracy
I radiate light's transparency Generation
Radiation
We are the chosen nation Hey you, you're blowing my mind again
Out of my skull, I feel the levitation
I feel my skin crawling off of my soul
I feel your radiation I'll be a radiator just like you
Radiate it on me, burn it on through I feel the radiation
Radiate it on me Hello future, hello birth
This is your newborn universe
There is no longer wrong or right
We have become a source of light Conceptual
Celestial
We are extraterrestrial Creator
Vindicator
We are the radiators
