

# Almost Said It

Carly Rae Jepsen

I always want more  
I'm never gonna get it  
You're gonna be the one I never got that got away  
And I'll regret it  
Just a moment in time  
But I can't forget it  
Yeah, we almost said it  
If this is love, ooh  
I should be dying  
But I'm going downtown like I still care  
Like I'm still trying  
I said I was over you but I'm lying  
There, I almost said it  
Every time you look at me  
I say it silently  
Oh, when will you wake up and get it  
This close, we almost said it  
I know you're not evil  
So why do you tease me  
Yeah, staying around here late at night  
You don't make it easy  
It's in my body language, read me  
We were this close  
This close, yeah  
And it's like every time you look at me  
I say it silently  
Oh, wake up, baby, come and get it  
This close, we almost said it  
You say that you're still not free  
Well, I hear selectively  
That still means someday you might be  
Oh, this close, yeah, yeah  
You wrote me a song  
I often play it  
Depending on where I am with you  
I either love it or I hate it  
We were just this close but we couldn't say it  
We were this close
