Custom Made

Andy Griggs

She says I'm a piece of work and I make her laugh
She's got answers for anything I could ask
Yeah we fit together inside and out
She knows where I'm going before I turn aroundNo there ain't another like her and I can't believe
That her soul and mine were meant to be
She flew in first class straight from heaven above
I gotta say, "She's just like custom made for me to love"
Yeah! Custom made, for me to loveWhen I put my arms around her we just fit
She tells me she ain't never felt nothin' like this
Yeah, she's that one in a million we're two of a kind
I was born to be hers she was made to be mineNo there ain't another like her and I can't believe
That her soul and mine were meant to be
She flew in first class straight from heaven above
I gotta say, "She's just like custom made for me to love"Yeah, she's that one in a million we're two of a kind
I was born to be hers she was made to be mineNo there ain't another like her and I can't believe
That her soul and mine were meant to be
She flew in first class straight from heaven above
I gotta say, Lord, I gotta say, yeah"She's custom made yeah custom made for me to love
Custom made, yeah for me to love, yeah
Custom made for me to love"
Yeah I gotta say, "She's custom made for me to love"
