

I Want More, Pt. 2

Faithless

I want more
I want some
And then some
And do you know what I wanna hear? I want more
I want some more
And then some
I want more I want more
I want more You know how I love that stuff
That stuff, that stuff
I want more
I want more I want more
The waiting's been so long
I want more I want more
More oneness, less categories
Open hearts, no strategies
Decisions based upon faith and not fear
People live here, right now and right here
I want the wisdom that wise men revere I want more
I want more
