

Please Please Please (Young Hollywood)

Head Automatica

You scream louder than fiction
And you get down on your knees
And tear open your heart
So I can love you and your disease Lick the hand that feeds you
And kiss the blade that cuts
I want to fuck you in your god's hands
When your praying bites the dust Please, please, please, please, please, please, please, please
Let me anoint the lust inside you
Please, please, please, please, please, please, please, please
Let me devalue you what's inside you Hollywood at night hanging around
If this is a must, then dying is a must right now
Hollywood at night hanging around
If this is a must, then dying is a must right now And I'll deny you
Fact or fiction? Fact or fiction? Fact or fiction?
It's a mission to survive, and learn to want you
When I hate, when I hate what's all inside Please, please, please, please, please, please, please, please
Let me anoint the lust inside you
Please, please, please, please, please, please, please, please
Let me devalue what's inside you Hollywood at night hanging around
If this is a must, then dying is a must right now
Hollywood at night hanging around
If this is a must, then dying is a must right now It's over
It's over
It's over
It's over You scream louder than fiction
And you get down on your knees
And tear open your heart
So I can love you and your disease You lick the hand that feeds you
And kiss the blade that cuts
I want to fuck you in your god's hands
When your praying bites the dust Please, please, please, please, please, please, please, please
Let me anoint the lust inside you
Please, please, please, please, please, please, please, please
Let me devalue what's inside you Hollywood at night hanging around
If this is a must, than dying is a must right now
Hollywood at night hanging around
If this is a must, than dying is a must right now Hollywood at night hanging around
If this is a must, then dying is a must right now
Hollywood at night hanging around

If this is a must, then dying is a must right now
