The Teacher's Discovery

Ayreon

[Teacher:]
I can't believe... this can't be true.
How could you know?
I've tried to solve this
For as long as I recallIs this your work? Be honest now
How did you do it?
I'm not angry, boy
But I really need to know[Prodigy:]
I'm sorry, sir, I can't explain
It's the way I've always been
You see, the numbers just appear
Before my eyes[Rival:]
Don't believe hi, no! He is envious!
I've felt it from the start
In every class, I've always been the genius
And he just wants to be like meDon't let him deceive you
He's nothing but a fake
A sad pretender
Trying to take my placeDon't let him deceive you
He's nothing but a fake
A sad pretender
A total waste of space
