

The Teacher's Discovery

Ayreon

[Teacher:]

I can't believe... this can't be true.

How could you know?

I've tried to solve this

For as long as I recall Is this your work? Be honest now

How did you do it?

I'm not angry, boy

But I really need to know [Prodigy:]

I'm sorry, sir, I can't explain

It's the way I've always been

You see, the numbers just appear

Before my eyes [Rival:]

Don't believe hi, no! He is envious!

I've felt it from the start

In every class, I've always been the genius

And he just wants to be like me Don't let him deceive you

He's nothing but a fake

A sad pretender

Trying to take my place Don't let him deceive you

He's nothing but a fake

A sad pretender

A total waste of space
