## A PLACE IN THE HEAT

the heat and the groove was the main thing  
everybody moving yeah right time  
do you know we got a sunshine on a cloudy day  
everybody electric on the dance floor yeah  
i feel the heat and the crack underground  
is like magic in the air, let me tell you now chorus  
that's love a place in the heat  
if you wanna know why, keep moving on  
that's love a place in the heart  
if you wanna know why, keep moving on  
moving on the jam ain't no stop the love in the air  
the feeling getting high  
people rising moving all around  
can't stop my love  
the fire in me yeah  
fresh ladies all around  
i feel the smile  
energy all around  
get up and dance and feel the heat chorus exodus we moving on the jam ain't gonna stop  
exodus we feeling got high don't get stop  
exodus we moving on the jam ain't gonna stop  
exodus we moving on the jam ain't gonna stop chorus
