Moonlight Affair

Silent Circle

Moonlight affair,
Moonlight affair...Was it love at first sight,
Or was it destiny?
But since the first time with you
I really know there's another oneWhen all the world is asleep
I wanna be with you
It ain't worth a single doubt
Maybe I know it cannot last for longMoonlight affair,
I can feel your heartbeat
Moonlight affair,
I'm just walking round and roundChorus:Moonlight affair,
(forever together)
I can feel your heartbeat
(close to me)
Moonlight affair,
(forever together)
I'm just walking round and roundAnd I walk by your side,
I long for your embrace,
Don't want to leave you tonight
And in your eyes I see the endless spaceBut soon the moment will break
And you'll be gone away
I don't like to hesitate
I feel your hand,
We know it's not too lateChorusIt's no love affair, go on dreaming
Nothing left to share but the moon
It's no love affair when we're leaving
Nothing left to share when you're goneChorus repeats till fadeaway
