

BoA

Eat You Up

Wash over me like rain
Can't get the hold on it
Just stay for one more day

But your eyes tell me you're afraid
let me proof that I can be
In a life we both believe
No timidity past

Mark my words babe and take my hand

Mark my words babe and take my hand
Well for a moment all the words are spoken and I feel alone
Ga ga ga, well I love you

Are you falling are you healing, are breaking, leaving in a minute
Well I hate you too
Some words is to be said
The taste of summer days

Reminds me of a tale

Freeze dried five hours of pain

Drops from her eyes now bring the rain
Let me proof that I can be
In a life we both believe
No timidity past

Mark my words babe and take my hand

Mark my words and just take my hand
Well for a moment all the words are spoken and I feel alone
Ga ga ga, well I love you

Are you falling are you healing, are breaking, leaving in a minute
Well I hate you too
Are you falling are you healing, are breaking, leaving in a minute
Well I hate you too
Some words is to be said
