

Walking Downtown

Copeland

We were walking downtown yeah
My favorite part of town
Walking downtown
We were walking downtown yeah
My favorite part of town
Walking downtown Through the night
We were waiting for a sign
Maybe rendered in the darkened sky
Drawn by imaginary lines
Connecting radiant points of light
Please don't go
Cause you showed up with your hair down
I might not sleep tonight We were walking downtown yeah
My favorite part of town
Walking downtown
We were walking downtown yeah
My favorite part of town
Walking downtown Lift your gaze from the pavement
From the streets
That we've crossed a thousand times before
Dry your eyes
There are birds singing on lamp posts
They don't know what all your crying's for
Please don't go
And I'm sure that I've not seen
The Christmas lights this bright before
