Special To Me

Bobby Caldwell

You are so special to me Loving you was surely meant to be And when I'm feeling blue, you hold me close You've always been so special to meWhen I think about my life Before I met you I'd wake up to this loneliness And long for someone newYou have been the reason For me to carry on I can't imagine life at all If your love was goneYou are so special to me Loving you was surely meant to be And when I'm feeling blue, you hold me close You've always been so special to meWhen we're together There's nothing we can't do There can be no other I would compare with youYou have been the reason For me to carry on I can't imagine life at all If your love was gone You are so special to me Loving you was surely meant to be And when I'm feeling blue, you hold me close You've always been so special to meThere could never be another love for me 'Cause you made my dreams come true Love until the end, we'll be lovers, best of friends Stay with me, eternally You are so special to me Loving you was surely meant to be And when I'm feeling blue, you hold me close You've always been so special to meYou are so special to me Loving you was surely meant to be And when I'm feeling blue, you hold me close
