

# Sweet thing

## Burach

Well, when she walks on by she's got that look in her eye  
Drop and roll, funk and soul  
And if she wants a guy you know she don't have to try  
Can't say no, what boy can't say no?  
Every since I saw her nothing's ever been the same  
I'm feeling like a brand new me  
She's the one that I need she could really make my life complete  
Wish she were crazy bout me  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
Dreams  
Well, she can break your heart, she can tear it apart  
With her smile, with her smile  
And when she starts to dance she's got you all in a trance  
Girl so fine, woo, woo, it's a crime  
Everybody wants her, what am I to do?  
I know that she don't notice me, wondering should I tell her  
I would give her everything  
Wish she were crazy bout me  
  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
Every since I saw her nothing's ever been the same  
I'm feeling like a brand new me  
She's the one that I need she could really make my life complete  
Wish she were crazy bout me  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
(Sweet thing)  
I will hold you in my arms and make you feel a part of my dreams  
(Sweet thing)  
I will finally make you mine and wrap you up inside of my dreams  
(Sweet thing)  
I will kiss you in the night and love you till we both start to scream  
(Sweet thing)
