

# Sleepin' with the Radio On

**Charly McClain**

My heart beats with the lonely rain  
Wishin' I could see your face again  
Change the dial on the radio  
Find somethin' playin' kinda bluesy an' slow  
If things were only like they used to be  
With you lyin' in love tonight  
I wish you'd call me on the telephone  
I don't wanna spend another night alone  
Sleepin' with the radio on  
It's the only way I can make it till dawn  
Sleepin' with the radio on  
You're on my mind 'an I can't forget you  
It's gettin' late, almost quarter-to-four  
I hear a knock at my door  
Stumble in the dark an' hear your voice again  
Open up the door an' let the sunshine in  
Take me in your arms an' make love nice an' slow  
It's so good to be this close to you  
No more nights of sleepin' alone  
No more days with these lovesick blues  
'Cause we'll be sleepin' with the radio on  
Let's take the rest of the day together  
An' I'll unplug the telephone  
Now that you're here, I'm gonna love you forever  
Sleepin' with the radio on  
I don't want more of those nights all alone  
Sleepin' with the radio on  
You're on my mind and I can't forget you
