

What About Love

Â'Til Tuesday

[i think this is in gm]Living on silence
Living by the book
You get it to a science
Of living on one good look
So put out all the fires
And blow away the smoke
I'm getting pretty tired
Of living on hopeSo what about love, baby
What about making room for two
What about love, baby
What about youLiving on daydreams
Walking in my sleep
And nothing is as it seems
When you're in so deep
So put out all the fires
And blow away the smoke
Unless you're getting tired
Of living on hopeSo what about love, baby
What about making room for two
What about love, baby
What about youSo what about love, baby
What about making room for two
What about love, baby
What about youWhat about you
What about you
What about me
