

King Billy

Ween

King Billy King Billy, why don't you invite them up?
I've got a word or two to tell them
It's about the situation
A terrible miscommunication Eating worms, oh, child of mine
Destined to side with the oppression
King Billy, let me speak to thee
[Incomprehensible] burn the connection
Oh man, fix the problem, it is the only solution King Billy, I see them birds in flight
Take off in every direction
I'm a thinking man, a feeling man
I will not side with the oppression King Billy King Billy, why don't you invite them up?
Put 'em in the opposite direction
A chance at love attraction
A chance to heal the nation King Billy, King Billy
King Billy, King Billy, King Billy
