

# This Time Around

[Linda Eder](#)

This time around I'll take the moment  
This time around I'll make it last  
I've had my share of wasted moments  
But this time around I'm holding fast This time around I will be stronger  
Stronger than I've been before  
I'll find the sky and soar  
This time around This time around I will be daring  
I'm going where I've never been  
This time around luck will come knocking  
And when he does I'll let him in This time around, no second places  
I'm showing aces, I'll win  
I'm gonna have it all  
This time around Love, I'm gonna find you  
Happiness, I'm right behind you  
I've had my share of crying  
But there's no denying I'm on my way This time around I'll taste the glory  
And I'm not going down without a fight  
This is my life, my own story  
And this time around I'll get it right This time around I'm gonna find it  
Look out world, watch me shine, shine  
I'm gonna grab that big brass ring and I'm gonna make it mine  
This time around, I'm gonna make it mine
