Out There Somewhere

Shiraz Lane

It's out there somewhere!
When you open your eyes, life slaps you in the face
this time, you realize, my midnight trip is here to stay
Everybody wants happiness, nobody wants pain
Can't have a rainbow without a little rain
So come, rain on my sunshine
As the sun goes down
I know it's time - It is my time
To be a memory
It's out there somewhere
I'll find it soon
And I know it looks a lot like you
It's out there somewhere
Out there
Hey you
I wanna know is your glass half full, empty or in-between
You can't have happiness without a little rain
As the sun goes down
I know it's time - It is my time
To be a memory
It's out there somewhere
I'll find it soon
And I know it looks a lot like you
It's out there somewhere
Out there
It's out there somewhere!
