Are We In Love Yet

Shakespear's Sister

It's just another day in this crazy place
Well, don't you ever feel like you're losing the race
We're all on the same long road
To get where we want to goAre we in love yet?
Don't you know that's what it's all about
Are we in love yet?
That's what makes the world go roundDon't need a crystal ball to see what's goin' on
Well, I can see the signs so come on everybody
Let it shine, shine, shine
Oh yeah, 'cause love makes you love somebody
Love turns you into somebodyAre we in love yet?
Don't you know that's what it's all about
Are we in love yet?
That's what makes the world go roundAre we in love yet?
That's what it's all about
Are we in love yet?
Don't you know that makes the world goLove's spinning, love's spinning round
Love's spinning, love's spinning round
'Cause love makes you love somebody
Love turns you into somebodyAre we in love yet?
Don't you know that's what it's all about
Are we in love yet?
That's what makes the world go roundAre we in love yet?
That's what it's all about
Are we in love yet?
That's what makes the world go roundAre we in love yet?
Don't you know that's what it's all about
