

Darkest Secret

Black Stone Cherry

They said the world's on fire, going down in flames
You're so passed out, the hell of a place
Just arm yourself and now you're all alone [?]
No warning call, no rescue hope(All alone!)Close your eyes and let your spirits smile
They found the laughter inside disaster
Take my hand, I'll leave you back to yourself
I will keep it, your darkest secretWhen it all comes down and the truth is known
(When it all comes down and the truth is known)
The dying youth could be fully grown
(The dying youth could be fully grown)
A shot way out from the loads and guns
(A shot way out from the loads and guns)
I sell my path for the wicked one
(I sell my path for the wicked one)(Wicked one!)Close your eyes and let your spirits smile
They found the laughter inside disaster
Take my hand, I'll leave you back to yourself
I will keep it, your darkest secret(Wicked one!)Close your eyes and let your spirits smile
They found the laughter inside disaster
Take my hand, I'll leave you back to yourself
I will keep it, your darkest secret
