

I Love Only You

Nitty Gritty Dirt Band

I like to drink my beer
Spend time with the boys
After work to down a few
Is somethin' I enjoy And sometimes I stay out too late
Yes, I know it's true
But I love only you And I like to take life easy
Work out in the yard
Sleep late on the weekends
After an all-night game of cards And drivin' my old Chevy
On a Sunday afternoon
But I love only you And I like my old guitar
And I'd like to be a star and shine on you
And I'd like to write a song
The whole world could sing along about you I love only you And I like my old guitar
And I'd like to be a star and shine on you
And I'd like to write a song
The whole world could sing along about you I like my old memories
The girls I used to know
Some of them still have a place
My mind likes to go Of all the ones I've cared for
Lord knows that's been a few
I love only you
Ah, honey, I love only you
