# Afraid

## The Flys

I'm here, out here
I'm sifting through the pieces of your life
And I know all of your fears
I know that you will one day be my wife, be my wife, yeah
Oh, are you now
Or have you ever been afraid
Oh, are you now
Or have you ever been afraid, been afraid
I know your face
I cannot seem to get you off my mind
And I see all of your fears
I know that you will one day be my wife
Where are you now
Or have you ever been afraid

Oh, are you now
Or have you ever been afraid, been afraid
I know your face
I cannot seem to get you off my mind
And I see all of your fears
Oh, are you now
Or have you ever been afraid
Oh, are you now
Or have you ever been afraid, been afraid
Are you now
Or have you ever been afraid
Oh, are you now
Or have you ever been afraid, been afraid
