Santa's Reindeer Ride

Ali Lohan

We've got our little fingers working hard
On trains and dolls and cars
Hurrying 'cuz Santa's a-waitin' soldiers marchin' out the door
Carryin' the toys galore for Santa's reindeer rideThis is more than just another reindeer ride not a practice run in July
We've got to load up all the festive gear peace and hope and yuletide cheer
For Santa's reindeer rideThere is so little time to make the toys for the little girls and boys
Hurry 'cause the big days coming there's no time to go to bed
Got to pack and load the sled for Santa's reindeer rideIts the time that we all work for every year
Make sure Rudolph and the gifts are hereWe've got to load up all the festive gear peace and hope and yuletide cheer
For Santa's reindeer ride
We've got to load up all the festive gear peace and hope and yuletide cheer
For Santa's reindeer ridePolish the runners shine Rudolph's nose tighten the harness brush off the snow
We love to sing our little working songs wish that we could tag along just to see the children's facesTonight the world is filled with joy
Deeper than the games and toys
Its time to load up the sleigh
Tonight the world is filled with joy
Deeper than the games and toys
Its time to load up the sleigh
(Its time to load up the)
Sleigh for Santa's reindeer ride
