Carpe Diem

Will Haven

Time how much have i wasted
i never grasped a clock
till he passed away
Greed rules what we make of ourselves
from the beggar to the chooser
who survives at the end of the trail
who has lived life to the fullest
ask yourself have i even breathed
or are we all riding life out
to tell the truth i'm in the backseat
now's the time to take a look
at what surrounds and embrace the hearts
of the ones in your life
spark the fire that will
torch the numbness inside
if you look to far ahead
you'll lose sight of today
Carpe Diem
